

Informed consent form for interview

Introduction: Hello, Assalamualaikum and greetingsMy name is Md Niamot Ali. I am doing my PhD research at the Corvinus University of Budapest under the Doctoral School of Sociology and Communication Science. The supervisors of my PhD dissertation are Dr Vera Messing, PhD, and Dr Luca Kristóf, PhD.

Project details and aims: In my study, want to investigate the Rohingya humanitarian crisis in Elite and Public discourse in BangladeshI am interested in exploring the development and the evolution of the elite and public discourse towards the Rohingyas in Bangladesh; identifying the driving factors that explain elite and public discourse towards the Rohingyas in Bangladesh; understanding the Rohingya humanitarian crisis given the public discourses among Bangladeshi people; and analysing the transformation of the elite and public discourse in favour of or/and against the Rohingyas in Bangladesh.

If you interested to be a part of this project, here is what will happen:

Interviews: I will have a conversation with you for approximately an hour. I will ask various questions about the Rohingya humanitarian crisis in Elite and Public discourse in BangladeshThe information you give will form the basis of my PhD research. Therefore, I will store your data safely and confidently following the anonymity principleWith your permissionI would like to make an audio recording of your discussion to ensure I am getting an accurate interview recordAt the same time, I would like to take notes in my notebook. I would also like your permission to keep your contact details so can re-contact you to clarify the information you gave me in your interview.

Rights: If you do not have to participate, you can ask me any questions you want before or throughout; you can also withdraw at any interview stage without giving a reason.

Publication plans: The project may/ will be published in a dissertation in partial fulfillment of the degree of Doctor of Philosophy in Sociology requirement.

Questions/concerns: Do you have any questions?

Do you permit me to interview you?	YES
Do you give your permission for me to audio record the interview?	NO
Do you permit me to quote you directly without identifying you?	NO

Participant name: Md. Lutfor Rahman Miah

Date: 15-06-2023

Interviewer name: Al Sifat Siddiki

Date: 15-06-2023

Questionnaires for interviews

Bangladesh's Response to the Rohingya humanitarian crisis

Factors influencing elite decisions on the Rohingyas.

1. Why did Bangladesh officially not allow the Rohingya from 2012 to 2016?

Answer: From 2012-2016, On that moments there was no power in Bangladesh without the economic and internal politics of Bangladesh Can provide accommodation for Rohingyas. Rohingyas would not take any permission or steps to enter and even the citizens of Bangladesh were not willing to accept their entry. Because of that, I think no help could be given to Bangladesh from 2012-2016.

2. Why was the Rohingya humanitarian response inevitable in Bangladesh in 2017?

Answer: The humanitarian response to the Rohingya in 2017 is due to the fact that the atrocities in Arakan State in 2017 were more than ever before, with many Rohingya dying innocently. Bangladeshi citizens then have a fondness for them because the Rohingyas share a religious commonality with the Bengalis, a major aspect of which is Bangladesh's humanitarian reaction towards the Rohingyas in 2017 to survive brutality and helplessness.

3. According to you, what are the key factors underlying Bangladesh's hosting of the Rohingya refugees in 2017?

Answer: In my opinion, the main reasons for Bangladesh's hospitality towards Rohingyas in 2017 come back to one place, we have one religion and whether you know it or not, we have language similarities with Rohingyas. Their language and manners are somewhat similar to those living in Chittagong and Cox's Bazar Similar to regional people. So I think this hospitality to Rohingyas is due to Bangladesh's religious and cultural and linguistic similarities.

4. Why and how do those factors evolve in Bangladesh regarding the Rohingyas?

Answer: The Rohingya people live in Myanmar's Rakhine State, which is basically across the Naf River in Bangladesh, which is the border area of Bangladesh. As a result, any country's peripheral population If atrocity or horror is carried out, the neighboring country will be disgusted with it. Since the Rohingyas could not bear the atrocities in Rakhine and came to Bangladesh, this matter developed and people helped them in various ways. Various

humanitarian funds and NGOs stand by the Rohingyas through health, services, education, food, and money.

5. What factors exist in the Rohingya humanitarian crisis in Bangladesh after the post-2017 situation?

Answer: If we talk about the reasons for the humanitarian crisis of the Rohingyas in Bangladesh, then the first thing that will come up is that the large influx of Rohingyas is creating some kind of pressure on the resources of the country. The Myanmar army's killings and tortures in Rakhine are committing human rights violations, depriving the Rohingya of their basic rights. They are afraid to go back to their country because of so much horror and injustice. The two countries political and diplomatic relations are deteriorating daily to solve the Rohingya problem. So if international aid is taken to deal with their humanitarian crisis, the crisis can be avoided to some extent.

6. Do the factors remain the same in all three significant influxes of Rohingyas, particularly in 1978, 1991-1992, and 2017?

Answer: (N/G)

7. Has the government's refugee policy been used to serve Bangladesh's larger foreign policy goals? If yes, please explain.

Answer: Yes, The government's approach to refugees has accustomed to meeting the aims of foreign policy. Bangladesh wants to express itself as a responsible regional actor in the country's internal regional strategy by harboring there are many refugees like referring to the Rohingya. In addition, the government is to strengthen its relations with the international community such as China, India, Russia, and the USA.

8. Why is the government of Bangladesh changing its initial position of hosting Rohingyas in Bangladesh?

Answer: Bangladesh government has changed the primary position of sheltering Rohingya. Along with the economic crisis, Bangladesh is a developing country, so I think that the Bangladesh government has changed its primary position of sheltering Rohingyas due to various mega projects in the country. In addition, they have become a problem for the people of Bangladesh. Their recent activities in camp such as rape, theft, robbery, and running away to local areas, the government has changed its primary position.

9. What recent emerging factors have helped the Bangladeshi elites stand against the Rohingyas?

Answer: Due to the violent behavior of the Rohingyas, various unethical activities carried out between the camps, drug trafficking, economic complications, and political problems of the country, not only the elites of Bangladesh but also the common people are against them. However, some prominent people and NGOs are still there to help the Rohingya. So I think that the Rohingya's current inflammatory activities are creating a mindset of standing against the elites of Bangladesh and the Rohingyas. Persistent population tensions with the Rohingya have been reported due to various socio-economic and resource competitions.

Thank you for your kind effort in cooperating to complete this questionnaire.
